

## Reach Out Officers ROOs

Real Futures have developed a unique external support innovation to help Aboriginal workers to maintain consistent attendance at work and avoid neglect of duties for reasons that are usually easily fixed.....if the help was immediate

This process enhances the work of internal mentors and provides a more holistic approach to common problems that occur off the job within family and community. These are the issues that can widen the disparity in Aboriginal and non- Aboriginal worker retention and career development

This service is available 24/7 without workplace intrusion.

ROOs are respected Aboriginal people selected for their capacity to listen, support and provide positive alternatives

ROOs will make themselves known to your workers immediately. They will receive a wallet size card with 24/7 ROO contact details. Incentive to work is imperative so conversations about setting and achieving dreams are part of our process

Real Futures is Supply Nation Certified and our services to you are in line with the new Federal Government procurement initiative
